# SELECTION OF PRODUCTS AVAILABLE FROM STOCK

## Convactor heater HC

Available from 250W to 3.500W single phase. Industrial room heating solution for rooms with higher volume of non authorized personnel.

## Immersion heater

Immersion heaters are being used for the heating of water, oil, air and a variety of other fluids and gasses. The elements can be supplied with or without temperature control and safety thermostats in the connection box.

## Air duct heater

A spiro pipe with a heating element and off course an integrated control. We stock heaters  $\varnothing$  100 mm up to and including  $\varnothing$  400 mm and from 500 to 12 kW.

## Square air duct heater

In certain rooms in ships but also buildings like hospitals often square ducting is available, rather than round. We have a standard range of square heaters available too.

## Finned tube air heater

Available from 250W to 3.500W single phase. Often placed in moist rooms and industrial environments with high demands such as elevator shafts, in ships, in drying rooms, gas stations and pump rooms.

## Fan heater

Available from 2 kW to 24 kW. Ideal for dry, clean and swift heating in amongst others industrial environments and ships. The air movement ensures an even heat transfer. Easily transportable to other rooms.

## Heating Group International b.v.

We are the Dutch market leader in the field of (industrial) electric process heating systems, both for safe and hazardous areas. From our design and production facility in The Netherlands we supply companies worldwide with bespoke heating systems.

Heating Group builds customer specific heating systems according to the **QuickNovation<sup>TM</sup>** concept.

**QuickNovation<sup>TM</sup>** is a combination of bespoke design, based on standardized Heating Group components. The major advantage? The speed with which we can deliver all types of custom built heaters. This gives us the flexibility and reliability our customers need.

Besides these products, Heating Group has developed a full range of standard products. These products are available from stock and are mainly sold to resellers throughout the world. We are always open for new dealer companies from any country. If you are interested in this, please contact us at [tgi@heatinggroup.eu](mailto:tgi@heatinggroup.eu)

Heating Group International combines the experience of a team of Engineers with over 150 years of knowledge in industrial electric heating. Our specialists are happy to help and can offer the right solution for any heating question.
