

Heating Group International temperatuur regelkast Elektrische heat tracing

5128001282280

- Capillary thermostat 0-40°C
- Capillary sensor 850mm
- Contact 16A
- Indication for power and heating
- Housing 130x130x75mm, IP65
- Also available in 30-85°C and 50-320°C. See pricelist for article numbers.

510000000063P

- Digital on/off control box with alarm 230V
- Switching capacity AC1, 16A
- Suitable for self-limiting cable
- Input: PTC, NTC, PT100, Ni120, Thermocouple J and K, 0-10V, 2-10V, 4-20mA, 0-20mA
- Equipped with alarm for power-, control- and sensor failure and to low temperature
- Housing IP65, synthetic, suitable for outside
- Equipped with power cable and plug
